

# REJUVENATE®

ONE-STEP Disinfectant Concentrate Formulated with

## CONCENTRATE DISINFECTION PROTOCOL

### ONE

Dilute Rejuvenate Concentrate 1:16 (one part Rejuvenate with 16 parts water or 8oz to 1 gallon).

Read label or reference sheet for other dilutions.

### TWO

Apply diluted solution to surface with sprayer. Diluted solution can be used for up to 90 days.

Personal Protective Equipment (PPE) not required at in-use dilutions.

### THREE

Allow surface to remain wet for **5 minutes** to kill viruses, bacteria and fungi per label instructions.

Read label or reference sheet for full list of claims.

### FOUR

Leave to air dry.

Optionally wipe any excess solution using clean cloth after required contact time has been achieved.

### BEST PRACTICES

- Disinfection should take place **after each and every** client service or treatment to prevent the spread of germs and infection.
- During any kind of outbreak or seasonal flu, use a **checklist** and have spa staff routinely disinfect those items throughout the day.

### DISINFECTION CHECKLIST

- Workstations
- Counters
- Basin foot baths (incl. magnetic jets)
- Piped/whirlpool foot baths\*
- Common area surfaces, racks, shelves
- Restroom surfaces
- Tables, chairs and all seating areas
- Employee lockers and lunchroom

\*Follow the circulating/whirlpool foot bath specific protocol for this equipment.
