

TEXAS STATE

Cleaning and Disinfection Guidelines

This document is brought to you by Virox™ ProBeauty. Review your state regulations below and learn how Rejuvenate™ disinfectants can help you achieve compliance.

Disinfectant Use and General Requirements*

- ◆ EPA-registered bactericidal, fungicidal, and virucidal disinfectants should be used.
- ◆ Implements and surfaces shall first be thoroughly cleaned of all visible debris prior to disinfection.
- ◆ The disinfectant shall be used in accordance with the manufacturers' recommendation or other guidance.
- ◆ All cosmetology establishments and licensees shall utilize clean and disinfected equipment, tools, and supplies.
- ◆ Clean and disinfected implements shall be stored in a clean, dry environment, separate from soiled materials.
- ◆ Manicure tables shall be disinfected prior to use for each client.
- ◆ All products should be properly labeled in compliance with OSHA requirements.

Health & Safety Standards-Esthetician Services*

- ◆ Equipment, implements, tools and materials shall be properly cleaned and disinfected after servicing each client.
- ◆ Facial chairs and beds, shall be cleaned and disinfected after providing service to each client.
- ◆ After each client, multi-use implements (metal tweezers and comedone extractors) shall be cleaned and disinfected.

Health & Safety Standards- Non-whirlpool Foot Basins*

- ◆ After each client, non-whirlpool foot basins shall be cleaned and disinfected in the following manner:
 1. All water shall be drained and all debris shall be removed from the foot basin.
 2. Inside of the foot basin must be scrubbed and cleaned with a clean brush, detergent, and water.
 3. The foot basin must be disinfected with an EPA-registered disinfectant with bactericidal, fungicidal and virucidal activity, according to the manufacturer's instructions.
 4. The foot basin must be rinsed, emptied and wiped dry with a clean towel.
- ◆ A record should be kept on the date and time of each cleaning and disinfecting procedure.

Rejuvenate™ Products Get You Inspection Ready

- ◆ Rejuvenate™ Ready-to-Use Spray and Wipes are EPA registered Hospital Level Disinfectants.
- ◆ Rejuvenate™ Ready-to-Use Spray and Wipes are ideal for work stations and non-circulating (pipeless) foot baths.
- ◆ Rejuvenate™ Concentrate is perfect for circulating foot baths.
- ◆ Prevention™ HLD8 is an FDA registered High Level Disinfectant solution for reprocessing semi-critical devices such as cuticle scissors and pushers, nail clippers, metal foot files, etc.
- ◆ Find Product information and Protocols sheets at: ViroxProBeauty.com
