

PREvention[®] HLD

High-level Disinfectant for Tool and Implement Reprocessing

TOOL CLEANING AND DISINFECTING PROTOCOL

1 CLEAN/RINSE/DRY

Clean tools using water and detergent. Rinse and dry thoroughly.

2 FILL SOAKER

Pour Prevention HLD8 directly into soaker. Do not dilute.

3 SOAK TOOLS & RE-USE SOLUTION

Fully immerse tools in Prevention HLD8 for only **8 minutes**. Re-use solution for up to 21 days.

The solution must be discarded after 21 days or sooner as dictated by the Prevention HLD8 Solution Test Strip.

4 RINSE, DRY & STORE

Rinse tools with water and dry manually using clean cloth or disposable towel. Store in a clean container marked "DISINFECTED".

BEST PRACTICES

- Tool disinfection should take place **after each and every client service** to prevent the spread of germs and infection.
- Only soak your tools for **8 minutes**. Do not leave tools soaking overnight.
- Use only **high quality** stainless steel and hard plastic professional tools to avoid compatibility issues.
- Let your clients know that the tools you are using have been **properly cleaned and disinfected**.
- Disinfect only reusable tools and ensure all single-use tools are properly disposed.
